-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 09 February 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Status of Claims***

Claims 1-5 and 7-10 are cancelled and Claim 6 is currently amended.

### ***Claim Rejections - 35 USC § 103***

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim 6 is rejected under 35 U.S.C. 103(a) as being unpatentable over Grant et al (US 3,015,558), as further evidenced by "Material Hardness," in view of Karlstrom.

Grant, as further evidenced by "Material Hardness," in view of Karlstrom is applied as discussed in the office action mailed 9/9/2008. Regarding the amended feature, it would have been obvious to one of ordinary skill in the art at the time the invention was made that the composition taught by Grant in view of Karlstrom would have the claimed property, since where the claimed and prior art products are identical or substantially identical in structure or composition, or are produced by identical or substantially identical processes, it is a reasonable assumption that any properties associated with that composition would likewise be the same or nearly so. See MPEP 2112.01 and *In re Best* (195 USPQ 430, CCPA 1977).

### ***Response to Arguments***

Applicant's arguments filed 3/13/2009 have been fully considered but they are not persuasive. Applicant argues that the amended claimed feature is not taught by Grant. This

argument is addressed above. Applicant also argues that the prior art does not teach the preferred range of the elements. The prior art can show overlapping ranges without showing the preferred composition to read over the claims. Applicant also argues that Karlstrom does not teach that P, O, and S are impurities. This limitation is not claimed. Karlstrom is cited to show that these elements would be obviously present and are within the range taught by Karlstrom. Regarding the heat treatment used to make the cutter, applicant does not claim any heat treatment steps. Even though product-by-process claims are limited and defined by the process, determination of patentability is based on the product itself. The patentability of a product does not depend on its method of production. If the product in the product-by-process claim is the same or as obvious from a product of the prior art, the claim is unpatentable even though the prior product was made by a different process. See MPEP § 2113.

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
